## Siempre a la vanguardia del desarrollo sostenible

En Pamesa Cerámica, el compromiso con el medio ambiente guía cada paso. Nuestra gestión ambiental se centra en minimizar el impacto de nuestras operaciones, controlando emisiones atmosféricas, aguas residuales, residuos y ruido, garantizando un respeto máximo por nuestro entorno.

Gracias a la Autorización Ambiental Integrada otorgada por la Generalitat Valenciana y nuestra adhesión al Sistema Integrado de Gestión de Ecoembes, lideramos la recogida y reciclaje de envases, promoviendo prácticas responsables. Además, optimizamos la gestión del agua con un enfoque en su reutilización y eficiencia.

Nuestros productos cuentan con Declaraciones Ambientales de Producto (DAP), certificadas por Aenor, que subrayan nuestra apuesta por la sostenibilidad. Innovamos constantemente con tecnologías avanzadas: desde sistemas de vertido cero y cogeneración de alta eficiencia, hasta la integración de azulejos descartados en nuevos procesos productivos.

Como parte de nuestra política de desarrollo sostenible, lideramos un ambicioso proyecto fotovoltaico que aspira a ser la mayor instalación de autoconsumo en Europa.

En Pamesa Cerámica, tradición e innovación se unen para construir un futuro más respetuoso con el planeta.

## Always at the Forefront of Sustainable Development

At Pamesa Cerámica, our commitment to the environment guides every step we take. Our environmental management focuses on minimizing the impact of our operations by controlling atmospheric emissions, wastewater, waste, and noise, ensuring maximum respect for our surroundings.

Thanks to the Integrated Environmental Authorization granted by the Generalitat Valenciana and our adherence to the Ecoembes Integrated Management System, we lead in the collection and recycling of packaging, promoting responsible practices. Additionally, we optimize water management with a focus on reuse and efficiency.

Our products feature Environmental Product Declarations (EPD), certified by Aenor, underscoring our commitment to sustainability. We constantly innovate with advanced technologies: from zero-waste systems and high-efficiency cogeneration to incorporating discarded tiles into new production processes.

As part of our sustainable development policy, we are leading an ambitious photovoltaic project that aims to become the largest self-consumption installation in Europe.

At Pamesa Cerámica, tradition and innovation come together to build a more environmentally respectful future.

## Toujours à la Pointe du Développement Durable

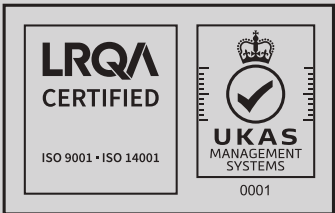

Chez Pamesa Cerámica, notre engagement envers l'environnement guide chacune de nos actions. Notre gestion environnementale vise à minimiser l'impact de nos opérations en contrôlant les émissions atmosphériques, les eaux usées, les déchets et le bruit, garantissant ainsi un respect maximal de notre environnement.

Grâce à l'Autorisation Environnementale Intégrée accordée par la Generalitat Valenciana et à notre adhésion au Système Intégré de Gestion d'Ecoembes, nous sommes leaders dans la collecte et le recyclage des emballages, promouvant des pratiques responsables. De plus, nous optimisons la gestion de l'eau en mettant l'accent sur sa réutilisation et son efficacité.

Nos produits disposent de Déclarations Environnementales de Produit (DEP), certifiées par Aenor, qui soulignent notre engagement en faveur de la durabilité. Nous innovons constamment avec des technologies avancées : des systèmes zéro rejet et de cogénération haute efficacité à l'intégration de carreaux recyclés dans de nouveaux processus de production.

Dans le cadre de notre politique de développement durable, nous menons un ambitieux projet photovoltaïque visant à devenir la plus grande installation d'autoconsommation en Europe.

Chez Pamesa Cerámica, tradition et innovation s'unissent pour construire un avenir plus respectueux de la planète.

The background of the page is a dark, textured surface. A prominent diagonal line runs from the top right towards the bottom left, separating a solid dark area on the left from a marbled pattern on the right. The marbled pattern features intricate, swirling veins of light grey and white against a dark, almost black, base.

# Lux Danae

Evocando a la naturaleza más energética nace Danae, una serie que homenajea a la piedra semipreciosa Ágata Mejicana con todos sus matices y detalles. Un fondo azul cristalino sobre el cual nacen ondas y vetas intensamente doradas y radiantes que convierten a esta serie en una joya decorativa.

Evoking nature at its most energetic, Danae is a series that pays tribute to the semi-precious Mexican agate filled with subtle nuances and details. Crystalline blue forms background for deeply glowing golden waves and veining that turns this series into a decorative jewel.

*C'est en évoquant la nature la plus énergétique que naît Danae, une série qui rend hommage à la pierre semi-précieuse Agathe du Mexique avec toutes ses nuances et détails. Un fond bleu cristallin sur lequel naissent des ondes et des veinures intensément dorées et rayonnantes qui font de cette série un joyau de la décoration.*

# Lux Deva

Deva es la oscuridad de la noche, un fondo negro iluminado por radiantes vetas blancas. Un mármol noble y elegante que nace en las canteras del País Vasco. Deva, reproduce al negro Marquina y saca a relucir todas las mezclas de calcita blanca y fósiles propios de este diseño tan espectacular.

Deva conjures up the darkness of night, with a black background lit up by radiant white veins. All the beauty of black Marquina marble, a fine-quality elegant stone quarried in the Basque Country, has been carefully reproduced, highlighting the mixes of white calcite and fossils found in its spectacular design.

*Deva est l'obscurité de la nuit, un fond noir éclairé par de radiantes veines blanches. Un marbre noble et élégant né dans les carrières du Pays basque. Deva reproduit le noir Marquina et met en avant tous les mélanges de calcite blanche et de fossiles propres à ce design si spectaculaire.*

# Lux Euphoria

Euphoria reproduce la belleza más pura e incomparable de la piedra Verde Borgoña. Un diseño de fondo verde, oscuro y profundo, como si de un bosque se tratara. Un paisaje que se ve iluminado por infinitos destellos blancos y ocre que siguen el trazo de un pincel. Intenso y casi tridimensional.

Euphoria reproduces the purest and most incomparable beauty of the Verde Borgoña stone. A design with a deep, dark green background, as if it were a forest. A landscape that is illuminated by infinite white and ochre sparkles that follow the stroke of a paintbrush. Intense and almost three-dimensional.

*Euphoria souligne la beauté la plus pure et la plus incomparable de la pierre verte de Bourgogne. Un dessin avec un fond vert foncé, comme s'il s'agissait d'une forêt. Un paysage illuminé par des éclats blancs et ocre qui suivent le coup de pinceau. Intense et presque tridimensionnel.*

# Lux Viola

Directamente de los Alpes Apuanos, Lux Viola llega para conquistarnos. Un homenaje al mármol calacatta caracterizado por las grandes vetas de color vino que nacen sobre un fondo cremoso. Un mármol de puro estilo neoclásico que se alza como el protagonista de cualquier espacio.

Straight from the Apuan Alps, Lux Viola arrives to conquer us all. A tribute to calacatta marble characterised by the large wine-coloured veins that emerge against a creamy background. A pure neoclassical style marble that stands out as the star feature in any space.

# Pisa

La exclusiva gráfica de sus vetas fuertes y audaces encuentran la inspiración en el clásico e indemne mármol Macchia Vecchia. Pisa presenta un cromatismo peculiar, con un blanco roto y unas finas vetas grises que se ven envueltas por el encanto de sus tonalidades ámbar y doradas.

This series' exclusive strong-veined bold design is inspired by timeless classical Macchia Vecchia marble. Pisa comes in a unique combination of colours, with an offwhite background covered in fine grey veins, charmingly streaked with amber and gold.

*Le design exclusif de ses veinures fortes et audacieuses puise son inspiration dans le marbre Macchia Vecchia, classique et immuable. Pisa présente un chromatisme particulier, avec un blanc cassé et de fines veinures grises mises en valeur par le charme de ses tonalités ambre et dorées.*

# Torano

Un diseño altamente diferencial y de gran belleza, caracterizado por su alto valor decorativo. Este mármol, muestra en sus finas vetas, una infusión acaramelada, pero con matices oscuros. En su esencia se aprecia el efecto del mármol oxidado a causa del paso del tiempo.

With its timeless beauty and singular design, strong decorative appeal is guaranteed. The slender veins of this marble combine shades of caramel with darker hints of colour, in addition to signs of oxidation slowly built up over time.

*Un design hautement différentiel et d'une grande beauté, caractérisé par sa haute valeur décorative. Ce marbre présente dans ses veines fines un ton caramel, mais avec des nuances sombres. En son essence on observe l'effet du marbre oxydé par le passage du temps.*

# Prince

La Serie Prince se inspira en la majestuosidad de la Sal de Roca, bloques de sal gema de aspecto refinado y distintivo que se formaron hace más de 250 millones de años en las minas del Himalaya, gracias al lento secado del mar y a la elevación simultánea de la cordillera.

The Prince Series draws inspiration from the grandeur of Himalayan Rock Salt, refined and distinctive salt gem blocks formed over 250 million years ago in the mines of the Himalayas, thanks to the slow drying of the sea and the simultaneous uplift of the mountain range.

*La Série Prince s'inspire de la majestuosité du Sel de Roche, des blocs de sel gemme au raffinement distinctif formés il y a plus de 250 millions d'années dans les mines de l'Himalaya, grâce au lent assèchement de la mer et à l'élévation simultanée de la chaîne de montagnes.*

**Cleaning freshly laid tiles & general care**

There are numerous different brands of cleaning products for ceramic tiles.

Freshly-laid tile surfaces must be given a thorough clean to remove residues and general building dirt. Tiled floors should also be cared for and kept in optimal condition.

For this purpose, we recommend the use of our AGC cleaning range.

# Transporte XXL

## XXL Moving Slabs / XXL Transport

El transporte de piezas de gran formato exige varios operarios.  
Será necesario el uso de ventosas y se podrán usar en todas sus variantes (1).  
Para piezas con superficie texturizada se recomienda el uso de ventosas que dispongan de una goma blanda, que garantice la adherencia de las mismas (2).  
Para facilitar el manejo y evitar la deformación, se pueden usar barras de transporte (3).  
La solución óptima, consiste en el uso de un bastidor rígido, dotado de ventosas, que sujete las piezas en todas direcciones sin deformaciones, posibilitando el transporte con solo dos operarios.

Several workmen will be needed to carry large-format slabs.  
Suctions cups will be necessary. Different types can be used (1).  
In the case of slabs with a textured surface, soft-rubber suction cups should be used to guarantee a good grip (2).  
To handle the slabs more easily and prevent the risk of warpage, carrying bars should be used (3).  
The best solution is a rigid frame, with suction cups that grip the slab along all sides. This prevents warpage and allows just two workmen to carry it.

Le transport des pièces de grand format requiert plusieurs opérateurs.  
Il sera nécessaire d'employer des ventouses et on pourra les utiliser dans toutes leurs variantes (1).  
Pour les pièces avec une surface texturisée, il est recommandé l'utilisation de ventouses qui ont un caoutchouc mou pouvant garantir leur adhérence (2).  
Pour faciliter le maniement et éviter les déformations, on peut utiliser des barrestransport (3).  
La meilleure solution est d'utiliser un support rigide muni de ventouses pour fixer les pièces dans toutes les directions sans déformations, ce qui permet que deux opérateurs suffisent pour réaliser le transport.

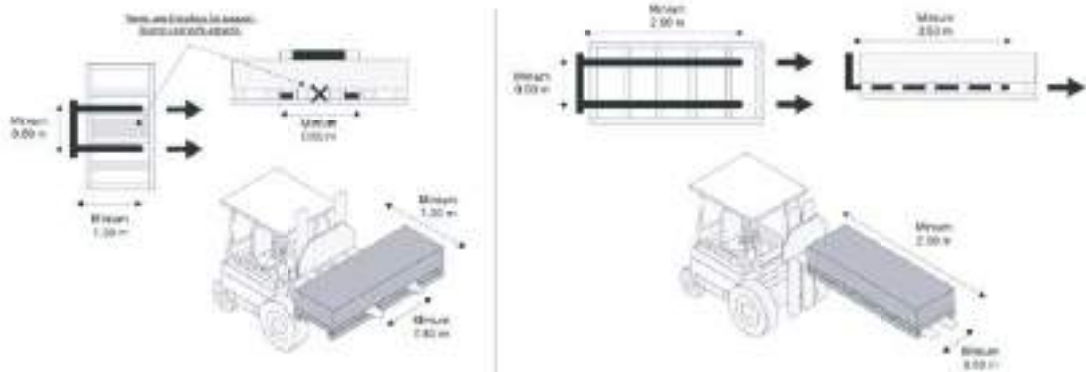

# Recomendaciones de almacenamiento

## Storage recommendations / Recommandations de stockage

Para una correcta manipulación de los cajones, se usará una carretilla elevadora con palas de 2,5 metros de longitud extendidas al máximo.  
En condiciones normales, situar las palas en la mitad de la parte más larga del pallet para sujetar la máxima profundidad.  
Nunca utilizar el hueco central para cargar.

To handle the crates properly, a fork-lift truck with 2.5-metre-long forks, when fully extended, should be used.  
Under normal conditions, the forks should be slid under the middle of the longest side of the pallet so that they support most of the underside.  
Never use the central opening in the crates to load them.

Pour une manipulation adéquate des caisses, on utilisera un chariot élévateur de 2,5 m de longueur à son extension maximale.  
Dans des conditions normales, les fourches se placent au centre de la partie longue de la palette pour les introduire au plus profond de la palette.  
Ne jamais introduire de fourche dans le creux central pour charger.

# Recomendaciones de corte, perforación y acabado

## Cutting, drilling and finishing recommendations

### Recommandations de coupe, perçage et finition

Las grandes dimensiones de las piezas no impiden operaciones de corte, perforación y acabados de cantos y se pueden realizar en la misma obra con el equipamiento adecuado.

Corte con guías de corte en seco

- 01. Primero se coloca la pieza cerámica en la mesa de trabajo.
- 02. Se marca la línea de corte, situamos la guía y la fijamos en su posición.
- 03. A continuación, se raya con el rodel la pieza, marcando los dos primeros centímetros hacia atrás y continuando con el resto de la placa, marcando con fuerza constante hasta el extremo contrario.
- 04. Para proceder con la separación, se presiona con la tenaza hasta escuchar el sonido de la rotura.
- 05. Finalmente se separan las piezas restantes con ayuda del borde de la mesa y ejerciendo la fuerza necesaria.

Despite the large dimensions of the tiles, they can be cut, drilled and their edges finished. This can be done on the worksite with appropriate equipment.

DRY-CUTTING USING A GUIDE RAIL

- 01. First, place the ceramic slab on top of the workbench.
- 02. Mark the cutting line, and then fix the guide rail into place.
- 03. Score the beginning of the slab with the cutting wheel, starting two centimetres from the edge and pulling back to the beginning of the slab. Then continue across to the other side, applying constant pressure.
- 04. To separate the two parts, exert pressure with a pair of pliers until a breaking sound is heard.
- 05. Use the edge of the workbench to snap the two pieces apart, exerting the necessary pressure.

Les grandes dimensions des pièces n'empêchent pas les opérations de coupe et de perçage et les finitions des chants, et on peut les réaliser sur le propre chantier avec l'équipement adéquat.

DÉCOUPE AVEC GUIDES DE COUPE À SEC

- 01. Placer d'abord la pièce en céramique sur la table de travail.
- 02. Marquer la ligne de coupe, situer le guide et le fixer dans sa position.
- 03. Ensuite, rayer la pièce à l'aide de la molette, en marquant les deux premiers centimètres vers l'arrière puis en continuant sur le reste de la pièce, en marquant avec une force constante jusqu'à l'extrémité opposée.
- 04. Pour procéder à la séparation, faire pression avec la pince jusqu'à entendre un bruit de cassure.
- 05. Finalement, séparer les pièces restantes en s'aidant du bord de la table et en exerçant la force nécessaire.

CORTE CON GUÍAS Y RADIAL

También podemos hacer uso de una guía y una radial con agua.

CUTTING WITH A GUIDE RAIL AND RADIAL TILE SAW

También podemos hacer uso de una guía y una radial con agua.

DÉCOUPE AVEC GUIDES ET DISQUEUSE

On peut également utiliser un guide et une disqueuse à eau.

TALADROS Y AGUJEROS

Para realizar agujeros se deben usar taladros no percutores. Se recomienda empezar con bajas revoluciones y refrigerar con agua.

DRILLING AND MAKING HOLES

To make holes, do not use drills in the hammer mode. Start at a low speed and refrigerate the bit with water.

PERCEUSES ET TROUS

Pour percer des trous on doit utiliser des perceuses sans percussion. Il est recommandé de commencer avec de faibles révolutions et refroidir à l'eau.

**Recomendaciones para la limpieza de decorados y piezas especiales**

Debido a las características de los metales utilizados en la confección de estos productos es suficiente utilizar una bayeta húmeda y jabón líquido neutro. Si la pieza llevara protección no quitarla hasta que el producto este colocado y limpio. No se atenderán reclamaciones una vez colocado el producto.

**Recommendations for the cleaning of decorative and special pieces**

Due to the characteristics of the metals used in the production of these pieces, only a damp cloth and neutral liquid soap are required to clean them. Any protective material should be left on the piece until it is fitted and clean. Complaints will not be considered once the product has been fitted.

**Recommandations concernant le nettoyage des decors et pieces speciales**

Dues aux caractéristiques des métaux utilisés lors de la confection de ses produits, il est suffisant d'utiliser une éponge humide et du savon neutre. Dans le cas où la pièce porterait une protection, ne pas l'enlever jusqu'à ce que le produit soit posé et nettoyé. Aucune réclamation ne sera acceptée une fois le produit Pamesa posé.
