THIS IS

Some collections have been designed with a provocative will. They provoke emotions, admiration, evocations. THIS IS fits in perfectly with the label of a provocative collection in the most sensorial sense of the word. The subtle movement of the surface, the light play that brings its relief, the horizontality, the contemporary spirit that the colors bring are all characteristics that stimulate the sense of touch and the need to travel through the surfaces covered by this collection. Contemporary colors representative of an evolutionary vanguard to which decorative elements have been added, full of singularities that complement an exuberant collection that nourishes all of the senses. THIS IS, a new value to decorativewalls.

Algunas colecciones han sido diseñadas con una voluntad provocativa. Provocar emociones, admiración, evocaciones. THIS IS encaja plenamente en la etiqueta de colección provocadora en el sentido más sensorial del término. El sutil movimiento de la superficie, el juego de luces que aporta su relieve, la horizontalidad, el espíritu contemporáneo que le aportan sus colores, son características que incitan al sentido del tacto a recorrer los revestimientos cubiertos con las piezas de esta colección. Colores contemporáneos representativos de una vanguardia evolutiva a los que se le añaden elementos decorativos llenos de singularidades complementan una colección exuberante de por sí para los sentidos. THIS IS es un nuevo valor para decorar las paredes.
