MIX & MATCH

SAY GOODBYE TO MONOTONOUS AND CONVENTIONAL AMBIENT DECORATIONS AND BET ON THE MIX.

Realonda presents a new format 40x120 cm. in glazed porcelain that will be the base for all decorative challenges, where SHAPES, TEXTURES and VOLUMES play a fundamental role. The goal is to obtain a harmonic result of the contrast between the elements that make it up. A smart and imaginative mix that is the key to the art of Mix & Match.

DESPÍDETE DE LOS AMBIENTES DECORATIVAMENTE MONÓTONOS Y CONVENCIONALES Y APUESTA POR EL MIX.

Realonda presenta un nuevo formato 40x120 cm. en gres porcelánico, que será la base para todo un reto decorativo donde las FORMAS, TEXTURAS y VOLÚMENES juegan un papel fundamental. El objetivo es conseguir un resultado armónico del contraste entre los elementos que lo integran. Una mezcla inteligente e imaginativa que es la clave para el arte del Mix & Match.

**REALONDA MODULAR SERIES
FOUR TILE PATTERN**

Realonda advises to mix tiles from several cartons at the time of setting to obtain an improved and authentic effect. Begin installing tiles in one corner of the room, one grid at a time. Finish each grid before moving to the next. Start with the first tile in the corner of the grid and work outwards. Don't slide tiles into place.

At the time of installing, insert (as the best option) a 3 mm tile spacer as each tile is set. For the Realonda modular pattern some pieces may appear to be up to 1 mm superior or inferior to its badge caliber due to manufacturing admitted tolerances (specifically on pieces 22x22 cm). Those pieces can be fit turning the sides or sharing some tenths each side in its space, the joint and the 3 mm tile spacer should not be widened. When grid is completely installed, tap in all tiles with a rubber mallet or hammer and wood block, to ensure a good bond and level plane. Remove excess adhesive from joints with a putty knife, and from tile with a damp sponge. Do not walk on tiles until they are set (usually is 24 hours).

To complete one module of our standard patterns you need 3 boxes containing the same number of pieces each box (0,87 sqm/box x 3 boxes = 18 pieces different sizes), multiply this quantity until you have the total area to be fixed. Other joints size and random use are able to fix according to inventiveness and under responsibility of the decision marker.

TECHNICAL FEATURES / CARACTERÍSTICAS TÉCNICAS

	Test Performed	Results
Frost Resistance	UNE-EN ISO 10545-12	Resistant
Water Absorption	UNE-EN ISO 10545-3	< 0,50%
Breaking Strength	UNE-EN ISO 10545-4	600 lbs. (270Kg.)
Scratch Resistance	UNE 67-101 (EN 101)	7 (Mohs Scale)
Durability Classification	UNE-EN ISO 10545-7	Class 4
